Presidents Corner

It is such a great blessing to be involved in a healthy Ashrae chapter with dedicated members. We have several exciting activities on the board this season. Your student activities chair Thomas Powell is scheduling a local facility tour and your YEA chair Evan Wester is planning the Emerging Leaders event at Local on February 20th. Mariel our CTTC chair has several interesting chapter lunch meetings setup including a joint seminar with ASHRAE/ASPE in March and a Natatorium Design seminar next week in February.

The Memphis chapter was well represented at the annual ASHRAE Winter Conference this past month in Chicago. If you did attend and have not inform me, please email me at cbriggs@ssr-inc.com as our chapter will receive credit for having members present at the conference!

Reminder: SAVE THE DATE for the Regional Planning Meeting and President Elect Training meeting that will be May 18th – 19th in Pell City, Alabama this year.

Looking forward to seeing everyone at the chapter meeting next week in the Holiday Inn Tennessee Ballroom at the U of M.

Sincerely,
Casper Briggs, PE
President
ASHRAE Memphis Chapter
These facilities are notoriously complex to design and can be expensive to operate. The presentation covers the many critical system design aspects of a Natatorium which include the fundamentals of psychrometrics, dew point, humidity/condensation control, moisture load calculation, air distribution, ventilation requirements, and how to optimize your operating conditions to minimize operating costs.

Presenter: Bob Phillips, National Sales Manager – Dectron
Bob Phillips, National Sales Manager for Dectron, is an Aerospace Engineering graduate from GA Tech. His employment history in the industry includes nine years with Newcomb & Boyd Consulting Engineers in Atlanta, GA. Bob has been involved with natatorium system design and equipment selection since 1998.
2018 ASHRAE Memphis Calender:

January 9th Meeting
