January 2008

LUNCH MEETING

TUESDAY, January 8, 2008

11:30 AM

Meeting Location:

Kemmons Wilson Center

3700 Central Avenue

MEMPHIS CHAPTER CONTACTS

PRESIDENT:

John Colmer: 761-0885
Cell: 359-3579
john@computerenvironment.com

PRESIDENT ELECT PROGRAMS / CTTC:

David Branham: 937-1720
davidb@branhamlloyd.com

SECRETARY:

Joey Matlock: 452-2500

TREASURER:

Brad Grammer: 685-2371

MEMBERSHIP:

James Fleck: 384-8400

NEWSLETTER EDITORS WEBMASTER:

Brian Schaffler: 345-6100
Kevin Crosby: 345-6100

STUDENT ACTIVITIES:

Russ Fletcher: 761-0885

**Speaker is ASHRAE Distinguished Lecturer E.
Mitchell Swann, PE**

Mr. Swann has over 20 years of experience in the areas of management, engineering and construction for a wide array of clients in diverse industries in the USA and abroad. Mr. Swann's career has included dispute resolution, consultation, forensic analysis, engineering design, construction, commissioning, validation and troubleshooting for complex mechanical, instrumentation, electrical and control systems for high-tech industrial, institutional and commercial clients. Mr. Swann's experience has included system design from concept development through construction, operations troubleshooting, master planning and expert witness consulting.

The marketplace has embraced 'sustainability' as a value-added feature in design, construction and operations. However, sustainability is not necessarily a 'line item' technology which can be added or deleted at will like the substitution of ceramic tile for sheet vinyl. If sustainability is value-added, then it is desirable and as such, would be designated as a term of the project contract. If so, what parameters should be used to measure compliance with that portion of the contract? Given the interrelationship of design, construction and operation on actual building performance, how are these interrelationships factored into the issues of contract compliance? If sustainability does have a value, a failure to achieve 'it' in a completed project should diminish the project value relative to the contract. A loss of value relative to the contract could establish grounds for compensation for that loss. How is that value to be measured and how is the loss of same to be compensated for? The program will identify and analyze the typical issues which impact the achievement of sustainable design and operation and provide a framework in which to assess value for those issues.

Power Equipment Company has just completed their 80th year serving Engineers, Contractors, and Industry with their boiler, air compressor, pump, and steam/water specialty applications. Thank you for your continued support over these years.

PYRAMID PRESS

THE PRESIDENTS CORNER

Welcome to 2008!

Looking backwards for a moment, our Memphis chapter has had a very nice run. Attendance is growing and your Board of Governors has worked hard to keep us in the top of the points race. Thanks to our Golf Committee and all the members that participated in making that a very successful event and raising lots of money for Research and Promotion.

As we progress into the New Year, I am sure that we can feel comfortable that our chapter will continue to excel and generate positive feedback and input.

You may notice the advertisement boxes available in the newsletter. These are to raise capital for our chapter functions such as the Christmas Party.

As the year goes forward, we will be working on updating our chapter database. Please help us out with your current information.

Brian Schaffler asked that all the companies send updates for their info [shown at <http://www.ashraememphis.org/page8.html>].

Let us know any changes to your companies info and we will make the changes. Please email any changes to kevin.crosby@gorhamschaffler.com.

I am looking forward to seeing everyone!

John Colmer

Chapter President

THE HISTORIAN

MEMBER NOTICES

ASHRAE MEMBERSHIP GROWTH

Please inform colleagues interested in becoming members of ASHRAE to log on to <http://www.ashrae.org> to fill out an electronic application. Once at the site click on "Join ASHRAE" on the left side of the page then scroll down to the appropriate application for the desired membership grade (This link will take you directly to the membership application selection page -

<http://www.ashrae.org/template/AboutLinkLanding/category/1872;jsessionid=aaaglpHers1BeQ>) .

Also, have each interested colleague go to the Memphis Chapter Internet site (<http://www.ashraememphis.org/page2.html>) and fill out a local chapter application. If the prospective members do not have internet access just have them contact me directly and give me their mailing address for me to send hard copies.

Total dues are \$150 National and \$85 local. Local dues are only \$15 if they will not attend the lunch meetings.

Please feel free to call or write with any questions.

James Fleck, P.E.
(ASHRAE Membership Promotion Chairman)
Gala Engineering
Phone: (901) 384-8400
Fax: (901) 373-2255
