September, 2005

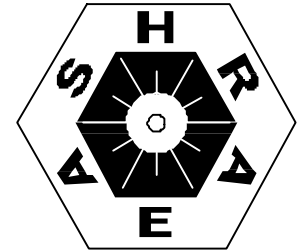

LUNCH MEETING 11:30 TUESDAY,
SEPTEMBER 13, 2005, KEMMONS
WILSON CENTER HOLIDAY INN, 3700
CENTRAL AVENUE

Speaker Topic – An Introduction to USGBC and LEED

By: John Barber

The U.S. Green Building Council is the nation's foremost coalition of leaders from across the building industry working to promote buildings that are environmentally responsible, profitable and healthy places to live and work.

As the leading organization representing the entire industry on environmental building matters, our unique perspective and collective power provides our members with enormous opportunity to effect change in the way buildings are designed, built and maintained.

THE PRESIDENT'S CORNER

President's Column

I wish to welcome each of you back for another exciting year with ASHRAE. The current Board of Governors has been working very diligently over the summer to catapult the Chapter into another successful year.

Please take a moment and recognize all the hard work that each member of the board has put forth this year. John Colmer has been working very hard on lining up some exciting programs. Please contact John with any TEGA submissions on the project design competition. Jason Snyder has worked endlessly on getting the membership committee brought up to speed to assist him. Russ Fletcher has some exciting Student Activities including a new University of Memphis Student Chapter President. Jeff Gatlin has started a monthly newsletter for Research/Promotion and is well on his way toward meeting the Full Circle Award. Brad Grammer has stepped up to the plate as our new Treasurer. Jerry Gatlin will be contacting you regarding upcoming Chapter History submissions. Chuck Royer as our ever-lovable Webmaster, and Denver Glazier the Newsletter Editor both work each month to keep these vital communication tools afloat. Also working hard for the Chapter have been Brent Wiseman (Secretary), Jimmy Fleck (At-Large Board Member), Rodney Lum (At-Large Board Member), and James Copeland (President Elect).

John Colmer has scheduled a plant tour at the Carrier Plant in Collierville on October 18, 2005. Carrier stated that their policy **would not allow** any members who were employees of Trane or York to participate in the plant tour. The ASHRAE Memphis Chapter Board of Directors has voted unanimously to **cancel** the scheduled Carrier plant tour since we would be forced to exclude certain members from participating. We felt that the "spirit of ASHRAE" was more about inclusion and that we did not need to endorse this type of behavior.

I am looking forward to seeing everyone at the **Kemmons Wilson Building** on the **University of Memphis Campus** for our first meeting. I know that the food and camaraderie will be excellent. See you Tuesday!!!

Evans Jack
Chapter President

ASHRAE IAQ 2007 Examines Healthy, Sustainable Buildings

ATLANTA - Healthy, sustainable buildings are those that create high quality indoor environments while minimizing their impacts on the outdoor environment. But achieving both can be a challenging goal. Guidance on how to do so will be presented at the American Society of Heating, Refrigerating and Air-Conditioning Engineers' (ASHRAE) conference, IAQ 2007 Healthy and Sustainable Buildings, which will be held Oct. 15-17, 2007, at Baltimore's Inner Harbor, Baltimore, Maryland.

"The issues of healthy and sustainable buildings are cyclical and interdependent," Lawrence J. Schoen, P.E., chair of the conference said. "Buildings not only impact the indoor environment but they have an impact on the outside environment. Our goal in creating healthy buildings should be to create indoor environments where people are healthy and productive but that minimize impact on the environment."

The conference will emphasize the measured performance of healthy and sustainable buildings and practical methods for their design, construction, operation and maintenance, according to Schoen. For more information, contact ASHRAE Technical Services at IAQ2007@ashrae.org or www.iaq2007.org.

ASHRAE, founded in 1894, is an international organization of 55,000 persons. Its sole objective is to advance through research, standards writing, publishing and continuing education the arts and sciences of heating, ventilation, air conditioning and refrigeration to serve the evolving needs of the public.

MEMBER NOTICES

ASHRAE MEMBERSHIP GROWTH

I am pleased to hear you have colleagues interested in becoming members of ASHRAE. Please inform them to log on to <http://www.ashrae.org> to fill out an electronic application. Once at the site click on "Join ASHRAE" on the left side of the page then scroll down to the appropriate application for the desired membership grade (This link will take you directly to the membership application selection page - <http://www.ashrae.org/template/AboutLinkLanding/category/1872.jsessionid=aaaglpHers1BeQ>) . Also, have each interested colleague go to the Memphis Chapter Internet site (<http://www.angelfire.com/tn/ashrae/page2.html>) and fill out a local chapter application. If the prospective members do not have internet access just have them contact me directly and give me their mailing address for me to send hard copies.

Total dues are \$150 National and \$85 local. Local dues are only \$15 if they will not attend the lunch meetings.

Please feel free to call or write with any questions.

Jason Snyder, P.E.
